

9. CAMPUS LOCATOR SYSTEM

Table 1

CLS Release Code (RC) Values		
Code	Meaning	Description
0		(Held in reserve)
1	No Restriction	Release of data to external sources OK (UC Directories, Public UCSF Web Sites, UCSF Operators). NOTE: This is the default.
2		(Held in reserve)
3	Restrict UCSF Internal	Release for Internal UCSF use (Internal Web Sites, Printed Campus Directory, Exchange Directory, and UCSF Operators).
4	Restrict UCSF Technical Support Staff	Release data to UCSF Technical Support staff. May be accessed by UCSF technical and other customer support services staff in performing their duties. Does not appear on internal web sites, name search records, Exchange directories or printed campus directory. Note that data restricted to RC 4 release may appear in call records accessible to non-support staff.
5	Restrict UCSF Telephone Operators	Release data to UCSF Operators Only. For use by Operators in contacting individuals, but not to be released upon either internal or external request. Does not appear on internal web sites, name search records, Exchange directories or printed campus directory.
6		(Held in reserve)
7		(Held in reserve)
8		(Held in reserve)
9	Restrict All	Available only to Public Safety. Data maintained in CLS, but not available for Internal UCSF views or externally to the Public. NOTE: Information may still be seen by payroll processors, programmers supporting campus payroll, CLS and related computer systems which access CLS data.
